

+ The company we are

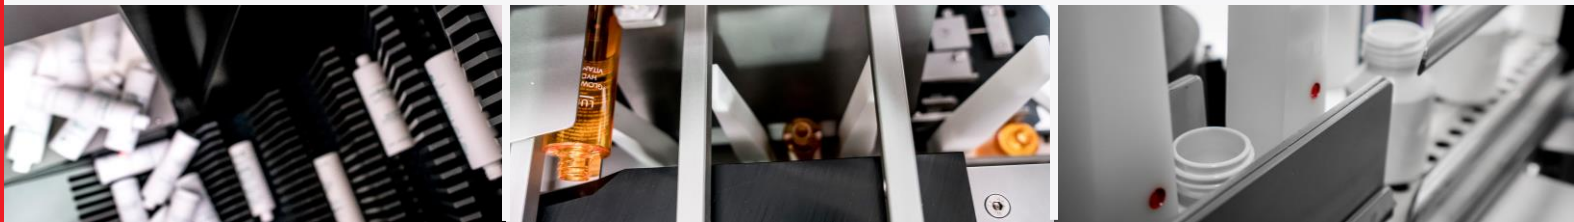

Packfeeder is a private company, started in 2002 in Terrassa, Barcelona, a leading company in bottle unscrambling solutions with worldwide patented technologies.

+ Solutions for bottles unscrambling

Mechanical in-Line series

Simplicity is a must – we are EASY

The in-line sorters provide extraordinary functionality, which allows them to work with countless products, as they can be configured according to the needs of a wide range of industrial sectors.

Robotic pickFeeder series

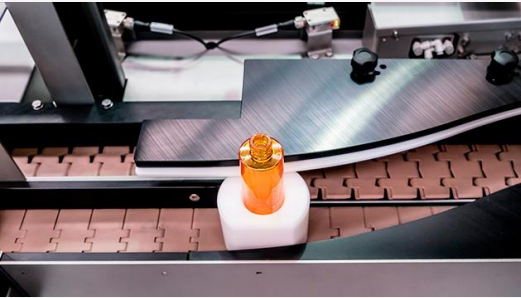

All about versatility – we are FLEXIBLE

The pickFeeder series can be configured with single or multiple robots capacity, providing a huge range of applications. Our combination of delta robots with an intelligent track system allows the pickFeeder series the best soft transfer to the output conveyor in the world.

+ Complementary solutions

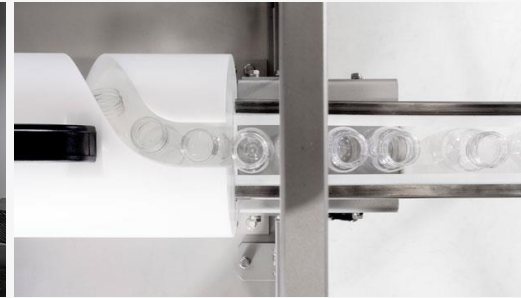

Packfeeder bottle sorting systems can be easily fitted with additional functions thanks to complementary modules that perform specific operations, providing efficient solutions to the different requirements of each production line

Puck Introduction
for unstable or delicate bottles
for easy line set-up

Bottle Orientation
for asymmetric bottles
for specific alignments

Bottle Cleaning
for demanding products
for delicate environments

+ Sectors we provide

Pharma

Cosmetics

Personal Care

Food

Chemicals

All our know-how at the service of your lines

Our after-sale service is an essential part of Packfeeder. We aim to guarantee optimal performance of the equipment and enhance the results of the production lines, generating a relationship of **trust and confidence** with the customer throughout their life cycle of the machine.

Spare parts, preventive maintenance, inclusion of new formats, adaptations, training and on-line assistance; the after-sale service is at your disposal to provide **rapid response and resolution**.
